Making acquaintance with Modern Laboratories and introducing a joyful teaching learning atmosphere to the students of primary section:

DIET, South24Paragana has taken a great leading role in training the teachers and trainee teachers in the district. Besides this the institute has also taken many initiatives and is trying its best to deliver quality education at the local level.

DIET, South24pgs is situated at Mandirbazar Block. There are many primary schools in this block. But the schools are lack of running with advantages of laboratories and library. Due to this the students have hardly any concept of library and these. The teaching learning process is also going on only through lecture method and the interest in learning is gradually decreasing.

Objectives

To increase the interest in the teaching-learning process and to enhance the quality of education.

To introduce the laboratories of math, science, literature to build their connection with the teaching learning process .

To introduce the modern digital technology of education like computer.

To give a realistic concept of the utility of yoga and the various materials of sports.

To show how to make the teaching learning process in a pleasing and joyful atmosphere by using modern methods of education.

To expand social awareness.

Highlights of the initiative

The principal of DIET S24Pgs had arranged a seminar with the Headmasters of local primary school. The motive of the seminar was how to increase the interest of students in the teaching learning process, how to use modern technology and LTM properly in education system, and to discuss the ways of enlarging social awareness. DIET, Joynagar, South 24pgs requested the students and teachers of local primary schools to make an educational visit to this Institution. In response of the invitation Prasun Ghosh F.P, Vidyamandir, Joynagar district along with 5 other schools visit from our DIET, 16th to 22nd March, 2023 with their teachers, students and our trainee teachers. In total 139 students, 6 teachers and 37 trainee teachers attended the educational programme.

• Activities:

At first an introductory session was done by our Lecturer with the students. Then they were acquainted with various materials of sports along with the yoga's, performed by the students and teachers. By coordinating sports with the syllabus of the school students, the DIET faculties showed how to deliver teaching in a joyful ambience.

Yoga perform

Next the students were taken to the Math laboratory. They were shown practically the easy methods of learning Mathematics. It Was displayed how to identify easily the various shapes of Geometry like triangle, rectangle, square etc.It was also shown how to solve various problems of math easily in different simple rules. The students were also acquainted with the various Mathematicians like Aryabhatha, Pythagoras etc.

Math Lab

After this when the students were taken to the science lab, they enjoyed a lot . It was exhibited practically in the lab how day and night happens, the shape of Earth, how earthquake occurs. They also achieved first hand realistic experience by handling the various instruments of the lab that made a great impact on them.

Science Lab

Thereafter, the students were taken to the library where they learnt how to tidy up books systematically, the importance of reading books etc. various picturesque books were shown to them that may increase their interest in books.

Library Room

After this discussion, they were taken to the Computer Lab. They were made acquainted with the computer and its utility in modern education system. They were also displayed a displayed a short film on Environment Conservation which will enlarge the students' social and environmental awareness.

Computer Lab

Awareness Programme

At last a meeting was done with them and their opinions were noted down. Thus the programme came to an end. We hope this kind of educational programme will influence the teachers as well as the students to grow attention and participation in their classroom.
